

LEADERSHIP DEVELOPMENT SERIES **EDU**

A Leadership Development Series for Educational Leaders

THE QUALITY COACH®

GROW. TRANSFORM. SUCCEED.

Leadership Development Designed for School Leaders

Why do we use the term "soft skills?" In actuality, they are the hard skills, requiring both agility and durability. Educational leaders need to exercise these skills daily and our Leadership Development EDU Series is here to help.

Leaders will:

- acquire powerful tools to increase self-awareness
- learn how to adapt to improve personal and professional interactions
- gain communication skills and engagement techniques designed to increase your effectiveness
- explore what it takes to build a culture of trust, respect, appreciation and motivation in the workplace
